

Success Strategies for EFFECTIVE COLLEGES AND SCHOOLS

"Changing Lives One Student at a Time"

Over half a million college students, as well as over 24,000 employees in 294 career colleges, have experienced The Pacific Institute's curriculum which includes the student program titled *Thought Patterns for a Successful Career™*. The results: Increased employee development, growing student enrollment and student retention.

Together with The Pacific Institute, Dr. Joe Pace, internationally renowned educator, student retention and enrollment management expert, has developed a comprehensive intervention program that comprises a six step education, training, and consulting process.

Six Step Comprehensive Intervention Process

1. Administration and Staff Training
2. Institutional Application and Facilitator Training
3. Student Training Implementation
4. Strategic Vision Building Workshop
5. On-going Student Training
6. Follow-up Services

"As a student, your curriculum motivated me to set and achieve meaningful goals. As a future business woman, your teachings empowered me by providing me with the tools to succeed."

— Indiana Business College Student

Snapshot of Expected Outcomes

- **10-15% increase** in student success, **retention** and enrollment
- **Improved** student grade point average (GPA)
- **Greater efficacy** during the admissions process, resulting in fewer "no shows" from enrollment to start date
- **Improved** self-esteem and personal growth for students and staff

The implementation of the *Success Strategies for Effective Colleges and Schools™* process has proven successful in career colleges around the country. These are just a few:
